

## **Data protection statement for Hospital Partnerships – Partners Strengthen Health**

This data protection statement applies to applicants to the funding program Hospital Partnerships – Partners Strengthen Health. GIZ takes the protection of personal data very seriously. This statement explains which personal data is stored and what it is used for.

### **Data controller – contact details**

The data controller is the Deutsche Gesellschaft für Internationale Zusammenarbeit [GIZ] GmbH. Registered offices: Friedrich-Ebert-Allee 32+36, D-53113 Bonn, Germany; Dag-Hammarskjöld-Weg 1 – 5, D-65760 Eschborn, Germany [OE G110]

### **Contractual partners/service providers**

ICG Informatics Consulting GmbH, Torstrasse 35, D-10119 Berlin, Germany.

Arge GOPA Gesellschaft für Organisation, Planung und Ausbildung mbH; Hindenburgring 18, D-61348 Bad Homburg, Germany.

Crolla Lowis & Partner; Papiermühlenweg 24, 52070 Aachen.

### **Purpose of processing and type of data**

The Hospital Partnerships – Partners Strengthen Health funding program runs a variety of programmes that provide both technical and financial support to partnerships between German health institutions and health institutions in low and middle-income countries.

The health institutions apply for GIZ support via the online application portal specifically provided for this purpose. When applicants enter information via the online tool (application portal), data will be requested about the health institutions and the projects.

If an application is successful, a subsidy agreement will be concluded between the health institution and GIZ. This subsidy agreement can be implemented only if the contact details of the persons authorised to represent the health institution are stored. These contact details constitute personal data. The data we are referring to comprises the following information about the authorised representatives:

- Name
- Address
- Telephone number
- Email address

If the health institutions collect personal data from third parties (e.g. persons involved in the project) in advance for the purpose of the application and transmit this data to GIZ, the health institutions are responsible for ensuring the lawfulness of the transmission and for providing sufficient information to the data subjects in accordance with this data protection statement. GIZ ensures that the transmitted data is handled securely.

### **Use of data and forwarding**

During the application phase, GIZ uses the data about the authorised representatives, project managers and the commercial officer for the purpose of communication.

The data made available by the applicants (curriculum vitae) is used to assess whether the projects are eligible to receive support. During the selection process, the data is forwarded to external appraisers, the Hospital Partnerships technical committee (consisting of GIZ, Kreditanstalt für Wiederaufbau (KfW), the German Federal Ministry of Health (BMG), Engagement Global and external experts), the German Federal Ministry for Economic Cooperation and Development (BMZ) as the commissioning party, and to the Else Kröner-Fresenius Foundation (EKFS), which cofinances the funding program.
